

“Excellent effort  
to give good  
clear examples  
of each clause  
and how they  
affect working  
projects”

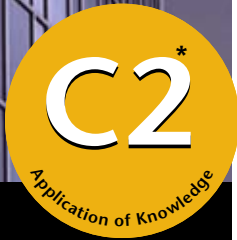

Barry McGann, Fahy Fitzpatrick  
Consulting Engineers

# Public Works Contract

Two-day programme

# Public Works Contract

Two-day programme

## Who should attend:

Employers  
Employer's Representatives  
Contractors  
Subcontractors

All those employed in key roles in the execution of public construction work from contracting party

## Programme Aim:

This is a practical course that emphasises those areas that give the most difficulty in the management of construction projects.

These issues include change management from instruction to valuation, programming requirements, extensions of time and risk allocation.

## Programme Outline:

- Contract Documentation and Schedules
- Roles and Responsibilities of the Employer, Employer's Representative and Contractor
- Programme and the way the contract controls time
- Compensation Events – Notification, Application and Evaluation
- Defects
- Payment
- Completion and Extensions of Time
- Termination
- Dispute Resolution

## Key Learning Outcomes:

- Delegates will have developed an understanding of the key conditions in the Public Works Contracts
