

Ibec Medtech & Engineering Sectors EHS OHS Forum Agenda

First Polymer Training Centre
7 Centre Court, Blyry Business & Commercial Park, Athlone, Co. Westmeath

Friday – 02nd December 2016, 11:00 – 14:00
Supported by Irish Medtech Association Skillnet

Occupational and Environmental Health Standards broadly impact the operations of every company and changes in legislation frequently have far-reaching effects. Key synergies exist in the Medtech and Engineering industry and this overlap can be leveraged to develop best practice models and new ideas. The forum will be hosted three times a year in a different member company, who will also present an industry case study and it will provide a platform to discuss the latest trends in EHS/OHS. Some of the forum benefits are:

- Remain up-to-date about new EHS and OHS legislation on the horizon
- Lobby and influence proposed legislation
- Learn and develop best practice models
- Troubleshoot current EHS/OHS issues
- Develop future forum agendas
- Excellent networking opportunity with likeminded individuals
