More to be announced....

This year the event features a special focus on the role of Nursing in postural management. IPMN membership is open to anyone working or training in the fields of mobility and/or postural management (Nurses, Doctors, Occupational Therapists, Physiotherapists, Prosthetists, Orthotists, Clinical & Rehabilitation Engineers and Technicians, Product Designers, Product Specialists). The network also welcomes and encourages the attendance and active participation of users of posture and mobility products.

The success and continuation of Day of Shared Learning is dependent on the presenters who share their knowledge, but equally so, on those who come to listen and to share their own knowledge in a less formal fashion. There will be opportunities to network during the lunch and coffee breaks. We encourage you to prioritise this as a key training event and valuable CPD opportunity for your annual calendar.
