

High Speed Two (HS2) – An engine for growth

6:30 PM Thursday 26th January 2017

At
Institution of Civil Engineers (ICE)
1 Great George Street, London SW1P 3AA

In the first event of the 2017 calendar, the GB region of Engineers Ireland host Mark Raiss, Engineering Director of AECOM, who will take us through the HS2 project. AECOM are responsible for developing the Phase 1 section of HS2 from London to the west midlands. This commission included design and environmental work along this 230km route, including cuttings and tunnels on over 50% of this section. Please book on the link below if you are planning to attend. Networking and drinks will be served afterward
