Facilities Management - Lecture 3 of 4
Overview of ISO 41000 – FM Framework

Date: Monday 25th February 2019
Time: 19:00 (Tea & Coffee from 18:30)
Venue: Rochestown Park Hotel, Cork (& webcast)
Speaker: Conor Cooney, Facility Management Lead, Arup

SYNOPSIS:

Overview of ISO 41000 – FM Framework

In April 2018, the ISO published the ISO 41000 - Facility Management suite of standards with the purpose of assisting Facility Management teams to achieve more efficiency in how they operate.

This new standard provides a framework, similar in structure to ISO 9001 (Quality), 14001 (Environmental) and 50001 (Energy).

This presentation will provide an overview of this suite of standards including forthcoming standards which are already being progressed. It will highlight why FM's should consider their implementation, the benefits and how these can be promoted within each organisation. It will also cross reference Workplace Strategies and how these are integrated.

SPEAKER BIO:

Conor joined Arup on 1999 to continue his engineering skills, first practiced in the UK. Since 2003, he has been leading the Facility Management Consultancy team in Arup. As an Associate Director, Conor and his team have been offering Advisory Services to Arup clients in relation to improving Policy & Strategy, Asset Performance, Reduced Risk, Asset Management Objectives, Cost Optimisation, Leadership & Governance, Recapitalisation Planning, Assurances, and Asset Intelligence using digital solutions. He is also a Certified FM and a Committee member of the IWFM Ireland.
